

# Obstacles to Green Growth

## Lack of awareness and notion of high cost are the leading barriers

## Financial sectors special lending rates to certified green buildings

To what extent do you agree: Special lending rates to be offered to IGBC/LEED/GRIHA

## Customers in India are not yet willing to pay premium for a green building

To what extent do you agree : A typical Indian consumer (person/ organization is not ready today for paying premium for green building

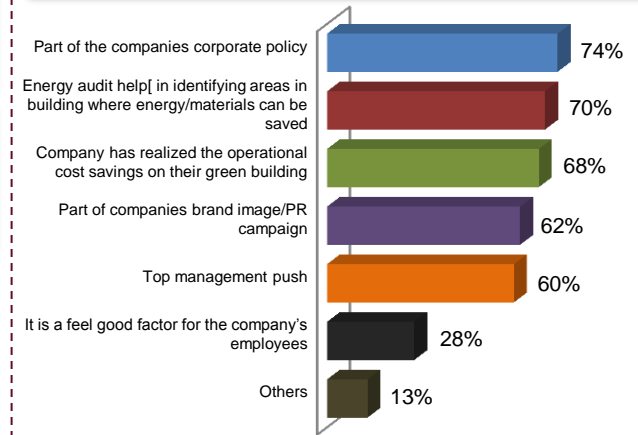

## Considering green real estate as PSL mandate for banks

To what extent do you agree: Should be mandated under Priority Sector Lending (PSL) for all banks by RBI

## Factors aiding corporate houses to choose green buildings as offices

## High Cost of Green building is more of a notion than reality

To what extent do you agree with the following statement: High cost of a green building is just a notion and actually the cost is equal to a normal building
